SINTEF confirms that

SCE Tap valve

complies with the requirements in

- › EN 200
- › EN 13959
- › NKB Product Rules no. 4

Certificate holder

SCE Technology (Ningbo) Co., Ltd.
No. 32, Yuanqu Road, Cha Lu Industrial Zone
Ninghai, 315606 Ningbo, Zhejiang, China

Manufacturer

SCE Technology (Ningbo) Co., Ltd.
No. 32, Yuanqu Road, Cha Lu Industrial Zone
Ninghai, 315606 Ningbo, Zhejiang, China

Factory production control

The manufacturing of the product is subject to factory production control in accordance with the provisions in EN ISO/IEC 17065.

Product description

SCE Tap valve with non-return valve in dimensions ½" x ½"
– external threads. Water-affected parts are made of dezincification-resistant brass (CW602N).

Performance requirements in TEK

Working pressure

The product meets the performance requirements at normal working pressure.
The product has been tested for 16 bar water pressure.

Effect on drinking water

The product does not submit substances which reduce drinking water quality or cause danger to health.
The product has been tested for release of heavy metals to drinking water according to NKB Product Rules no. 4.

Back-flow

The product has protection against back-flow and entering of polluted liquids.

Other requirements

Marking

The product may be marked with the SINTEF certification mark as shown above. The mark may also be used on packaging and marketing materials concerning the certified product.

Dezincification resistance

The product has been tested for dezincification resistance according to EN ISO 6509.
